

Beez manual

When you run the ROM file, you'll see the the title screen.
Press the space bar to start the game.

The game idea is to create a colour code by flying from flower to flower and pushing spacebar.

When you got the code right, you get 5 extra seconds.

A new code is created and the time will go faster.

1. Hi-score
2. Your score when you are playing
3. The colour code what you have to create
4. Your colour code what you have created
5. Time left in the game

Have fun!

Greetz,

Rudi "Lord S.M.Zett" Westerhof
